# PROJECT TITLE

jeevеш - personal portfolio website<sup>t</sup>

# PROBLEM STATEMENT

*In today's digital-first world, professionals require a strong online presence to showcase their skills, projects, and achievements. A resume or LinkedIn profile alone is not enough to reflect creativity and individuality. The challenge is to design a modern, visually engaging, and responsive portfolio website that highlights technical skills, projects, and contact details in a professional yet unique style.*

# PROJECT STATEMENT

This project is a cyberpunk-inspired personal portfolio website developed using HTML, CSS, and JavaScript.

The design reflects speed and precision (inspired by Formula 1 racing), while maintaining a user-friendly interface for visitors.

- It showcases the following:
- Introduction (hero section)
- About Me with skills
- Projects with live links
- Contact form with validation
- Social media links
- Responsive design for all devices

# END USERS

- Recruiters / Employers: To quickly assess skills and projects.
- Clients: To explore design and development capabilities.
- Peers / Collaborators: For networking and collaboration opportunities.
- General Audience: To know more about the developer's skills and work.

# TOOLS AND TECHNOLOGIES

- Frontend Languages:
- HTML5
- CSS3 (Neon & Cyberpunk styling, animations, responsive design)
- JavaScript (form validation, smooth scrolling, hamburger menu, scroll animations)
- Libraries & Assets:
- Google Fonts (Orbitron, Rajdhani)
- Font Awesome (icons)
- Deployment: Can be hosted on GitHub Pages, Netlify, or Vercel.

# Portfolio Design and Layout

- Theme: Dark neon cyberpunk theme with gradients and glowing effects.
- Sections:
  1. Header & Navigation – Sticky, responsive with hamburger menu.
  2. Hero Section – Animated car racing track, large intro text.
  3. About Section – Skills, personal details, image.
  4. Projects Section – Grid-based cards showcasing work with links.
  5. Contact Section – Contact form with validation + info.
  6. Footer – Social media icons and copyright.
- Responsive Design: Adjusts for desktop, tablet, and mobile.

# FEATURES AND FUNCTIONALITY

Smooth scrolling for navigation links

- Animated track & F1 car in hero section
- Interactive navigation menu (hamburger for mobile)
- Responsive grid layout for projects
- Contact form validation (name, email, message)
- Scroll-to-top button
- Social media integration (GitHub, LinkedIn, Instagram, Twitter)
- Hover effects & animations for buttons, links, and cards

# Results and Screenshots

Result:

A professional, futuristic portfolio website that clearly demonstrates technical skills and design creativity while ensuring mobile compatibility.

JEEVESH

Frontend Developer & UI/UX Designer with a need for speed and precision.

ABOUT ME

Designing at the speed of light

I'm a frontend developer with a passion for creating immersive digital experiences. Drawing inspiration from Formula 1 racing, I value precision, speed, and innovation in my work.

With expertise in HTML, CSS, JavaScript, and modern frameworks, I build websites that not only look stunning but perform flawlessly across all devices.

# Conclusion

The Jeevеш Portfolio Website successfully addresses the problem of showcasing skills and projects in an engaging way.

With its neon cyberpunk theme, responsive design, animations, and contact functionality, the portfolio stands out from traditional resumes and static websites.

This portfolio can now serve as a strong personal branding tool for job opportunities, freelancing, and networking.
